

## CASE HISTORY

### Commercial Building – City of Larissa / Greece

**PROJECT:** Commercial Building – City of Larissa

**DATE:** February 2007

**CUSTOMER:** ISOLINE LTD

**INDUSTRY:** Commercial Building

**LOCATION:** City of Larissa – Central Greece

**PRODUCTS:** Penetron Admix, Penebar SW – 45 Rapid

**CASE SUMMARY:**

City of Larissa is located in the central part of Greece. The contractor of the commercial building, Lamko S.A., had to decide between PVC membranes and Penetron Admix for waterproofing the basement slab and walls. After the careful examination of the two systems Lamko S.A. chose Penetron Admix due to its effectiveness, reliability and simple applications methods. On the same project they used Penebar SW-45 Rapid in order to waterproof the cold joints between the basement slab and vertical concrete walls. The percentage of Penetron Admix used was 1% by cement weight and the total slab area was 2000 m<sup>2</sup>.
